### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. **Claims 27 and 29-33** are rejected under 35 U.S.C. 102(b) as being anticipated by **Smith (US 5,699,438)**.

#### **Regarding claim 27,**

Smith teaches an assembly, comprising: an acoustic device ("53" in figure 2); a trim panel (28) having an inner surface and an outer surface; and an attachment member (74,76,80,82) integrally formed with said inner surface of the trim panel (28) wherein the attachment member includes means for simultaneously *ramping and rotationally moving* (via leg "75" in figure 2) the acoustic device (53) about an axis extending through the acoustic device and the trim panel to axially move the acoustic device relative to the trim panel about an axis (*see the rotation of member "70" and the compression which is facilitated via the length of leg "75", as discussed in Col 4:59-62*).

**Regarding claim 29,**

Smith teaches that the attachment member includes two mounting portions ("74","76" in figure 2), wherein the two mounting portions include means for locking (77) the acoustic device in place.

**Regarding claim 30,**

Smith teaches that the means for locking the acoustic device includes at least one detent ("82" in figure 2) integrally formed with said inner surface of the trim panel, wherein the at least one detent is disposed between the two mounting portions ("74" and "76", prior to locking engagement).

**Regarding claim 31,**

Smith teaches that the acoustic device comprises two mounting surfaces ("61" in figure 2) and means for receiving (58,60) the at least one detent, wherein the means for receiving the at least one detent includes at least one recess (58,60) disposed between the two mounting surfaces.

**Regarding claim 32,**

Smith teaches means for allowing the acoustic device to be inserted over the attachment member (see "74", "76", "80", "82", "58" and "60" in figure 2).

**Regarding claim 33,**

Smith teaches cutouts ("54" in figure 2) formed in an opening of the acoustic device (53).

***Allowable Subject Matter***

2. Claims 16-26 are allowed.
3. Claim 28 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

Applicant's arguments with respect to claim rejected in Office Action mailed 7/3/2007, have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
